

THE VITTORE BRANCA CENTER RESIDENCE

Inaugurated in June 2010, the Vittore Branca Center Residence is located in the heart of the park on San Giorgio Maggiore. It was conceived for international scholars interested in living medium to long periods of study in Venice, working in the Giorgio Cini Foundation libraries.

The Residence has a campus structure, with common spaces (living room, music room, fitness room, terrace) and a laundry. Food and basic products can be found in vending machines located next to the laundry.

Every room is equipped with private bathroom and small kitchenette with sink, refrigerator and microwave oven. Bed linens and towels are provided by the Giorgio Cini Foundation and the maid changes them once a week, when cleaning up rooms.

In every room there is a telephone that can be used to receive calls and to make toll-free calls. Each guest has a temporary Internet access, provided they bring their own laptop and ethernet cable. There is no TV.

Considering the Residence is a place of study, we kindly ask guests not to make noises during the night, in order not to disturb the other residents.

Lastly, for security reasons, all residents are required to wear their yellow badge all the time, so they can be recognizable.

The Giorgio Cini Foundation asks all guests' collaboration in arriving, when possible, on working days and between 8.30 AM and 8.00 PM, in order to guarantee the best services.

Mr. Massimo Busetto, Master of Campus, at: campus@cini.it / +39 041 2710101 is at disposal to provide guests with further information regarding the Vittore Branca Center Residence.
